

Objective: create a map with key geographic features **identified** and **labeled**

Directions: Label the following geographic features on your world maps. You will label on two different maps; pay careful attention to which map you are supposed to use. Use the atlases provided (p. 10-11) OR the atlases in your textbook (A4-A5) to help you locate the features.

USE MAP A: POLITICAL MAP

1. **7 continents:** Europe, North America, South America, Africa, Asia, Australia, Antarctica (**label** in red)
2. **Orientation: Draw** a compass rose on your map-include cardinal directions (N, S, E, W) and intermediate directions (NE, SE, SW, NW)
3. **Other Features:** Equator, Prime Meridian, Tropic of Cancer, Tropic of Capricorn (trace these and **label** them clearly in black ink) and the Northern, Southern, Eastern, Western Hemispheres (you can **label** these on your map **OR draw** a diagram on the bottom)
4. **Define:** Equator, Prime Meridian, Tropic of Cancer & Tropic of Capricorn (you may have do these definitions on a separate sheet of paper or the bottom/back of this)

USE MAP B: PHYSICAL MAP

1. **5 oceans:** Pacific, Atlantic, Arctic, Southern, Indian (**label** in blue)
2. **Seas:** Mediterranean, Caribbean Sea, Gulf of Mexico, Red Sea, Black Sea, Adriatic Sea (**label** in purple)
3. **Mountains:** Ural, Alps, Himalayas, Andes, Rockies, Appalachian (**label & draw** brown ▲)
4. **Deserts:** Sahara, Arabian, Kalahari, Gobi (label, **outline and shade** in orange)
5. **Rivers:** Amazon, Nile, Mississippi (**label & trace** in blue)
